Dear Ms Muyembe,

We hope this email finds you well. Thank you for your email and comprehensive detailing of the Sirimba Global Design competition and the impactful work being done under the Sirimba Model to power critical social services. At SEforALL, we are proponents that SDG7 is a key driver to achieving the other sustainable development goals, and your work is a testament to this.

We have been in touch with our powering healthcare and clean cooking teams, who are in touch with counterparts from Solar Kwetu on the Sirimba Global Design competition. Please let us know should you need any further assistance.

Best regards,

Executive Office
Sustainable Energy for All (SEforALL)
